

Testing Agreement

Pristine Inspections works with several laboratories to determine the presence or absence of various chemicals, elements, materials and life forms. **Pristine** will collect appropriate samples which will meet the prescribed protocols set forth by the laboratory involved for each test process. **Pristine's** liability is limited to our properly collecting the highest quality samples. We will meet or exceed the lab's sampling requirements. However, liability for the actual testing process rests with the particular laboratory providing the service.

The Client hereby requests that the following tests be performed:

- Short Term Radon Gas (3 samples)
- Long Term Radon Gas (2 samples)
- Formaldehyde Gas
- Lead Paint
- Asbestos fiber
- Water : basic coliform
- Water : house/baseline ... 9 tests
- Water : nitrate/nitrite
- Water : lead/copper
- Water : cation/anion balance suite
- Mold Tape Study
- Other
